

CATERING booking form

The City Farm Café is the trading arm of Windmill Hill City Farm, providing high quality catering to the community rooms here. Everything we do is designed to reflect and support the ethos of the charity, and all our profits help support the educational and social work the Farm does. Our menu is constantly changing, but you can always find the best produce at the core of our dishes. The Farm has a strong environmental policy, and we play our part by using great local produce, some of it from our own doorstep, and recycling most of the waste we produce, including adding to the Farm's compost heaps daily. Our menus are vegetarian, in line with our sustainability policy. See our website for more supplier information. Please feel free to mix and match the options if your group would like a variety to share. Minimum order of each option is for 8 people.

Please complete all the details below, including any dietary requirements or allergies.
